CATOBO | AIRPOSEIDON

Introduction

Catobo was established in 2007 & the company has grown from strength to strength over the past 15 years. The initial starting up off the company was at Grosvenor House on Sheikh Zayed Road & now is based in Business Bay. From a team of 2, 1 company with 1 product in 2007, **Catobo** have now expanded in 2022 to a team of 27, 3 companies & 7 products. Our customer database is over 2000 customers with more than 750 projects.

AirPoseidon was born in 2021 from the joint vision of two associates and friends residing in the Dubai, United Arab Emirates, to develop a new perspective and source for the Middle East North Africa (MENA) and the sub-continent regional helicopter and fixed wing general and corporate aviation markets based on their joint experience of operating in the area.

Vision

AirPoseidon has been developed as the operational branch of **Catobo** focusing on consultation for aircraft acquisition, training and logistical support including areas such as lighting, fuelling, heliport design and certification. With our combination of experience and international networks **AirPoseidon** will provide an ethical, efficient and open capability to support our clients' expectations and needs.

The CATOBO | AIRPOSEIDON principal team

Between them the two principals, **Unni Madhavan** and **Andrew Masterson** have a combined knowledge and operational experience of over 50 years based in the UAE, MENA and the sub-continent.
